

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

### **Section 1: Identification**

**Chemical Product Name/Identifier:** Pyre-M.L. RC5083

**CAS Number:** Mixture

**Trade Names and Synonyms:** ML-108

**Recommended Use and Restrictions on Use:** Insulation of magnet wire

**Company Information:** Industrial Summit Technology Corporation  
250 Cheesecake Road  
Parlin, NJ 08859

**Telephone:** Product and Sales Information: 732-238-2211

**Emergency Phone:** CHEMTREC: 1-800-424-9300

### **Section 2: Hazards Identification**

**OSHA HCS Status:** This product is a hazardous chemical, as defined by OSHA at 29 CFR 1910.1200. Hazards identified are based on hazards of the ingredients.

**Relevant Route of Exposure/Target Organs:** Dermal, Eyes, Inhalation, Respiratory System

#### **OSHA/GHS Signal Word and Hazard Statements:**

DANGER: Combustible liquid. Causes skin irritation. Causes serious eye irritation. May be fatal if swallowed and enters airways. May cause cancer. May damage fertility or the unborn child. May cause genetic defects. May cause respiratory irritation. Harmful to aquatic life with long lasting effects.

#### **OSHA/GHS Classification and Pictograms:**

Flammable liquid (Category 4) H227

Skin irritation (Category 2) H315

Eye irritation (Category 2A) H319

Aspiration hazard (Category 1), H304

Carcinogenicity (Category 1B) H351

Reproductive toxicity (Category 1B) H360

Germ cell mutagenicity (Category 1B) H340

Specific target organ toxicity - single exposure (Category 3, respiratory system) H335

Acute aquatic toxicity (Category 3) H402

Chronic aquatic toxicity (Category 3) H412

For the full text of the H-Statements mentioned in this Section, see Section 16

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

### OSHA/GHS Precautionary Statements:

#### Prevention

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from hot surfaces.– No smoking.

Wash hands and exposed skin thoroughly after handling. Wear protective gloves, eye and face protection specified in Section 8.

Avoid breathing mist, vapors, or spray. Use only outdoors or in well-ventilated area.

Avoid release to the environment.

#### Response

In case of fire: Use water spray, foam, dry chemical, carbon dioxide, or any Class B extinguishing agent.

If exposed or concerned: get medical advice/attention.

If on skin: Wash with plenty of water. Take off immediately all contaminated clothing and wash it before reuse. Specific treatment: see Section 4 for First Aid instructions.

If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting.

If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell.

#### Storage

Store in a well-ventilated place. Keep cool. Store locked up.

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

### **Disposal**

Dispose of contents/container in accordance with local/regional/national/international regulations.

**GHS Hazard and Precautionary Statement Codes:** See Section 16.

### **Section 3: Composition/Information on Ingredients**

**Chemical Product Name:** Pyre-M.L RC 5083

Component	CAS #	Weight %
N-methyl-2-pyrrolidone	872-50-4	12 – 13
Polyamic Acid of Pyromellitic Dianhydride/4, 4- Oxydianiline (Polymer)	25038-81-7	18 – 20
Dimethylacetamide	127-19-5	68 - 69

### **Section 4: First-Aid Measures**

**Skin Contact:** Immediately wash skin with soap and water. Remove contaminated clothing. Get medical attention. Wash contaminated clothing before reuse.

**Eye Contact:** Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention.

**Inhalation:** Remove person to fresh air. If not breathing, give artificial respiration. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Remove material from eyes, skin, and clothing.

**Ingestion:** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Immediately give 2 glasses of water. Consult a physician.

**Most Important Symptoms/Effects:** Skin and eye irritation. May cause respiratory irritation or distress. May cause cancer and damage fertility or the unborn child.

**Indication of Immediate Medical Attention and Special Treatment Needed:** Get medical attention immediately any of the symptoms noted above occur.

### **Section 5: Fire-Fighting Measures**

**Extinguishing Media:** water fog, foam, dry chemical, CO<sub>2</sub>.

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

**Hazardous Combustion Products:** Oxides of carbon produced when burned. Vapor forms explosive mixture with air.

**Protective Equipment:** Firefighters and others who may be exposed to products of combustion (see Hazardous Decomposition Products in Section 10) should be equipped with self-contained breathing apparatus and full protective gear. Equipment should be thoroughly decontaminated after use.

**Fire Fighting Procedures/Precautions:** Keep away from heat/sparks/open flames/hot surfaces. Keep personnel removed and upwind of fire. Closed containers exposed to heat may build up pressure. Use water spray to keep exposed containers and equipment cool. Use water spray to cool containers and tanks.

### **Section 6: Accidental Release Measures**

**Personal Precautions:** Review Firefighting Measures and Handling sections before proceeding with clean up. Take precautions to avoid eye, skin, and respiratory exposure. Should exposure occur, see Section 4 for first aid measures. Flammable vapors can accumulate in low areas and form explosive concentrations.

**Protective Equipment:** Use appropriate personal protective equipment during clean up. See Section 8.

**Emergency Procedures:** Maintain adequate ventilation. Shut off all sources of ignition. No heat, sparks, or flame in the area.

**Methods/Materials for Containment and Cleaning Up:** Dike spill. Remove sources of sparks, flame, or hot surfaces. Absorb spill with commercial absorbent material and place in suitable containers for disposal. See section 13 for disposal instructions. Do not discharge into waterways or sewer systems without proper authority. Dispose of in accordance with government regulations.

### **Section 7: Handling and Storage**

**Precautions:** Avoid breathing vapors or mist. Avoid contact with eyes, skin, or clothing. Wash thoroughly after handling. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material. Keep away from heat, sparks and flames.

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

**Storage:** Keep container in a cool place. Store below 50 C (122 F). Keep container tightly closed. Store in accordance with National Fire Protection Association recommendations.

### Section 8: Exposure Controls/Personal Protection

#### **Exposure Limits:**

Component	OSHA PEL	ACGIH TLV	OARS/WEEL**	I.S.T/AEL*
N-methyl-2-pyrrolidone	NA	NA	10 ppm 8 hr TWA	25 ppm 8 hr TWA
Dimethylacetamide	10 ppm 35 mg/m <sup>3</sup>	10 ppm	NA	NA
Polyamic Acid of Pyromellitic Dianhydride/4, 4-Oxydianiline (Polymer)	NA	NA	NA	10 mg/m <sup>3</sup> total dust, TWA 25 mg/m <sup>3</sup> total dust, TWA

\* AEL is I.S.T's acceptable limit. Where governmentally imposed occupational exposure limits, which are lower than the AEL are in effect, such shall take precedence.

\*\* Occupational Alliance for Risk Science, workplace environmental exposure level.

**Engineering Controls:** Use ventilation that is adequate to keep employee exposure to airborne concentrations below recommended exposure limits. Provide natural or mechanical ventilation to control exposure levels below airborne exposure limits. If practical use, use local mechanical exhaust ventilation at sources of air contamination such as open process equipment. Consult NFPA Standard 91 for design of exhaust system.

#### **Personal Protection Measures/Equipment:**

**Skin Protection:** Wear appropriate chemical resistant gloves and clothing to prevent skin contact. Consult glove manufacturer to determine appropriate type of glove for given application. Wear chemical safety goggles, a face shield and a chemical resistant apron when splashing is likely. Wash immediately if skin is contaminated. Remove contaminated clothing promptly and launder before reuse. Clean protective equipment before reuse. Provide a safety shower at any location where skin contact can occur. Wash hands and exposed skin thoroughly after handling. Repeated or prolonged contact may cause allergic skin reaction in some people.

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

**Eye Protection** – Wear eye and face protection. Wear safety glasses with side shields or chemical goggles that meet ANSI Z87 standards and/or are tested and approved under appropriate government standards. Eyewash stations should be easily accessible.

**Respiratory Protection** – Avoid breathing vapor and/or mist. Use NIOSH/MSHA approved respiratory protection equipment (full face piece recommended) when airborne exposure limits (see below) are exceeded. If used, full face piece replaces need for face shield and chemical goggles. Consult respirator manufacturer to determine the appropriate type of equipment for given application. Observe respirator use limitations specified by NIOSH/MSHA or the manufacturer. Respiratory protection programs must comply with 29 CFR 1910.134.

### **Section 9: Physical and Chemical Properties**

**Appearance (physical state, color, etc.):** Amber viscous liquid

**Odor:** Mild amine

**Odor Threshold:** Not known

**pH:** Not known

**Melting Point/Freezing Point:** Not known

**Initial Boiling Point:** Not known

**Flash Point:** 63°C (145°F)

**Evaporation Rate:** Not known

**Flammability:** Flammable liquid

**Upper/Lower Flammability or Explosive Limits:** Not known

**Vapor Pressure:** Not known

**Vapor Density:** Not known

**Relative Density/Specific Gravity:** 1.04 @ 25°C

**Solubility:** Not known

**Partition Coefficient:** Not known

**Auto-ignition Temperature:** Not known

**Decomposition Temperature:** Not known

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

**Viscosity:** 20 – 40 Poise

**% Volatiles:** 79 - 81

NOTE: This physical data are typical values based on material tested by may vary from sample to sample. Typical values should not be considered as a guaranteed analysis of any specific lot or as a specification for the product.

### **Section 10: Stability and Reactivity**

**Reactivity:** Not known

**Chemical Stability:** Not known.

**Hazardous Reactions:** Not known

**Conditions to Avoid:** All sources of ignition – heat, sparks, and open flames.

**Incompatible Materials:** Strong oxidizing agents.

**Hazardous Decomposition Products:** Oxides of carbon.

**Hazardous Polymerization:** Does not occur.

### **Section 11: Toxicological Information**

**Relevant Route of Exposure/Target Organs:** Dermal, Eyes, Inhalation, Respiratory System

**Symptoms:** Causes skin irritation. Causes serious eye irritation. May cause respiratory tract irritation. May damage fertility or the unborn child.

#### **Delayed and Immediate Effects:**

##### N-methyl-2-pyrrolidone

Inhalation 4 hour LC50: 3,914 mg/kg in rats

Dermal LD50: 8000 mg/kg in rabbits

Oral LD50: 4320 mg/kg in rats

Eye contact with the liquid or vapor may initially result in irritation with discomfort, tearing, or blurring of vision. Low vapor concentrations caused eye irritation in some individuals.

Skin effects: Skin contact may initially result in irritation with discomfort or rash.

Inhalation may initially include: irritation of the upper respiratory passages, with coughing, discomfort, and headache.

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

N-methyl-2-pyrrolidone: Human experience has demonstrated severe dermatitis (blistering, cracking, edema, redness) upon prolonged or repeated skin contact. There are inconclusive or unverified reports of human sensitization.

### Polyamic Acid of Pyromellitic Dianhydride/4, 4- Oxydianiline (Polymer)

Inhalation 4 hour LC50: 15,600 mg/m<sup>3</sup> in rats

The polymer resin is a slight skin irritant, and is not a sensitizer in animals.  
Inhalation: Effects of a single exposure include discomfort and difficult respiration.  
Ingestion: Effects of repeated exposure included reduced food consumption and reduced rate of weight gain.

Skin contact may initially include: skin irritation with discomfort or rash.

Inhalation may initially include irritation of the upper respiratory passages with coughing and discomfort.

Significant skin permeation and systemic toxicity after contact appears unlikely.

### Dimethylacetamide

Dimethylacetamide (DMAC) causes eye irritation. DMAC will cause skin irritation and can be absorbed through the skin. Skin absorption causes symptoms similar to ingestion. If ingested DMAC causes gastrointestinal irritation with nausea, vomiting and diarrhea. May cause liver damage. May cause central-nervous system depression, characterized by excitement, followed by headache, dizziness, unconsciousness/coma and possible death due to respiratory failure. May cause auditory and visual hallucinations, disorientation, sweating and weakness. Inhalation causes respiratory tract irritation and effects similar to ingestion. Chronic ingestion may cause liver damage and reproductive and fetal effects.

### **Health Effects Summary**

#### **Chronic Effects (Following Short and Long Term Exposure):**

### Toxicological Data

n-Methyl Pyrrolidone (NMP)

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

Human experience indicates that continued or gross skin contact with NMP produces irritation, redness, and defatting of the skin. Inhalation of very high concentrations of NMP may result in headache, giddiness, nausea, and mental confusion. Repeated dosing of laboratory animals with NMP has been reported to cause changes in organ weights and blood composition, reduced response to sound, and breathing difficulty at a dosage which produced death. No skin allergy was observed in guinea pigs following repeat skin exposure. Long-term inhalation (2 years) of NMP produced no increase in tumors in rats and NMP did not show Tumor initiating activity in a mouse skin painting study. Birth defects were reported following dermal application of NMP to rats at amounts which produced adverse effects on the mother and following intraperitoneal injection in two strains of mice. No birth effects were reported in rats exposed to NMP by inhalation. No effects were seen on the ability of rats to reproduce when exposed to NMP for two successive generations, although toxic effects were reported in offspring at levels which produced adverse effects on the mother. NMP has produced no genetic changes in standard tests using animal and bacterial cells.

Toxicity described in animals from single exposures includes irregular and rapid respiration/ hyperemia, salivation and weight loss. Repeated exposures caused lethargy and irregular respiration at concentrations of 0.1 and 0.5 mg/L, and at 1.0 mg/L, bone marrow hypoplasia, thymus, spleen and lymph node changes occurred (reversible after 14 days post-exposure), and mortality. There were no observed effects from a study in which rats were exposed to 370 ppm for two weeks. Changes in rats exposed for two years to 10 or 100 ppm included reduced weight gain in male rats at the 100 ppm concentration level. No other significant changes occurred in this study.

Repeated exposure of dogs to 25, 79 or 250 mg/kg/day of the compound in the diet caused lower serum cholesterol, and increased platelet counts. Rats fed 800, 2000 or 5000 ppm exhibited minor effects which included increased thyroid weights in males, and increased urine pH and enzymatic changes in males and females.

### **Carcinogenicity:**

Components of this product are not classified by NTP, IARC, or OSHA as carcinogens.

### **Section 12: Ecological Information**

N-methyl-2-pyrrolidone

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

96-hr LC50 Bluegill: 382 mg/l

96-LC 50 Fathead minnow: 1072 mg/l

Dimethylacetamide

96-hr LC50 Fathead minnow: 1500 mg/l

**Persistence and Degradability:** Not known

**Bioaccumulative Potential:** Not known

**Mobility in Soil:** Not known

### **Section 13: Disposal Information**

Do not discharge into waterways or sewer systems. Dispose of in accordance with government regulations.

### **Section 14: Transport Information**

Not regulated when shipped in containers < 119 gallons.

### **Section 15: Regulatory Information**

**TSCA Inventory Status:** All ingredients are on the TSCA inventory.

**SARA Title III Section 311/312 Hazard Categories:** Immediate (acute), Delayed (chronic), Fire

**SARA Title III Section:** The component listed below is subject to the reporting requirements of Section 313 of the Emergency Planning and Community Right to Know Act of 1986 (EPCRA or SARA Title III) and 40 CFR 372.

Component	CAS #	313 Listed	%	RQ (lb)
N-methyl-2-pyrrolidone	872-50-4	Yes	12 - 13	--

**CERCLA RQ:** None.

### **California Proposition 65:**

This product contains N-methyl-2-Pyrrolidone and dimethylacetamide, chemicals known to the State of California to cause birth defects or other reproductive harm (developmental).

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

### **Section 16: Other Information**

**Date of Preparation or Revision:** June 01, 2015

#### **GHS Label Hazard Statement Codes**

Signal Word: DANGER

H227: Combustible liquid

H315: Causes skin irritation

H319: Causes serious eye irritation

H304: Aspiration hazard

H335: May cause respiratory irritation

H351: Suspected of causing cancer

H360: May damage fertility or the unborn child

H340: Germ cell mutagen

H335: Specific target organ toxicity - single exposure (Category 3, respiratory system)

H402: Harmful to aquatic life

H412: Harmful to aquatic life with long lasting effects

#### **GHS Label Precautionary Statement Codes**

P201: Obtain special instructions before use.

P202: Do not handle until all safety precautions have been read and understood.

P210: Keep away from flames and hot surfaces. – No smoking.

P260: Do not breathe dust/ fume/ gas/ mist/ vapors/ spray

P264: Wash hands thoroughly after handling.

P271: Use only outdoors or in a well-ventilated area.

P273: Avoid release to the environment.

P280: Wear protective gloves, eye and face protection.

P281: Use personal protective equipment as required.

P301+310: IF SWALLOWED: Immediately call a poison center/doctor.

P302+P352: IF ON SKIN: Wash with plenty of soap and water.

P303+313: If exposed or concerned: Get medical advice/attention.

# Industrial Summit Technology

## SAFETY DATA SHEET

Date Updated: June 01, 2015

Product Name: RC 5083 Pyre-M.L

P304+P340: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

P305+P251+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P307+P313: If exposed: Call a POISON CENTER or doctor/ physician.

P312: Call a POISON CENTER or doctor/physician if you feel unwell.

P331: Do NOT induce vomiting.

P332+P313: If skin irritation occurs: Get medical advice.

P337+P313: If eye irritation persists: Get medical advice.

P364: Take off contaminated clothing and wash it before reuse.

P403+P233+P235: Store in a well-ventilated place. Keep container tightly closed. Keep cool.

P405: Store locked up.

P501: Dispose of contents/container in accordance with local/regional/national/international regulations.
